

Hyosung fibre technologies for the new
**Wellness@Home
Collection**

1. Look After Yourself

2. Cool, Calm & Connected

3. At Home Outdoors

4. One For All & All For One

Trend

- ✓ The lives of consumers have – for now – been altered dramatically by the impact of the coronavirus crisis. Working from home and social distancing have shifted requirements for categories such as office workwear and socializing to **items suitable for a life lived in the home and for enjoying outdoor activities with social distancing.**
- ✓ This global situation is supercharging an **already increasing demand from shoppers for functional, comfortable and sustainable activewear designed for home training and exploring the great outdoors.**

Target

This collection showcases fibre technologies for consumers looking for **multi-functional, comfortable ‘Wellness@Home Collections’** that provide:

- more comfortable home training with sustainable, functional fibres
- comforting wellness at home and outdoor, every minute of every day
- multi-purpose, sustainable outdoor activity clothing
- Features that are inherent in the fibres, providing long-lasting benefits.
